Now I will delete this SALE.

The screenshot shows the 'Sales (All Warehouses)' interface. A table contains one entry with the following data:

Date	Reference No	Biller	Customer	Sale Status	Grand Total	Paid	Balance	Payment Status	Actions
22/03/2021 08:20:00	P-0010	VEZBA	Test M1	Completed	4,000,000	0,0000	4,000,000	Pending	Actions

A 'Delete Sale' dialog box is open, asking 'Are you sure?' with 'Yes I'm sure' and 'No' buttons. The 'Delete Sale' option in the actions menu is highlighted in yellow.

The screenshot shows the 'Sales (All Warehouses)' interface after deletion. A green message bar at the top says 'Sale successfully deleted'. The table below is empty, displaying 'No data available in table' and 'Showing 0 to 0 of 0 entries'.

After delete quantity in All Warehouse is correct and it is again 3014.45 kg

The screenshot shows the 'Products (All Warehouses)' interface. A search filter 'tasbel' is applied. The table contains two entries:

Image	Code	Name	Brand	Category	Cost	Price	Quantity	Unit	Alert Quantity	Actions
	101100	TASbela	RL1	MATERIJALI	6,1000	8,0000	3,014,45	kg	0,00	Actions
	101944	FL9TASbela	RL1	MATERIJALI	5,5000	8,0000	0,00	kg	0,00	Actions

The quantity '3,014,45' is highlighted in yellow. The interface shows 'Showing 1 to 2 of 2 entries (filtered from 5,148 total entries)'.

But in VP warehouse is not correct. After delete, quantity in VP warehouse stay unchanged – 2104 kg.

It should be: $2104 + 500 = 2604$ kg.
